

Kovarus Proven Solutions Center

ACCELERATE BUSINESS THROUGH IT.

Kovarus is a systems integrator that helps companies modernize and automate IT. We enable businesses to transform their IT service delivery to help them accelerate innovation and deliver cost-effective business outcomes. Kovarus has helped some of the greatest companies in the world by leveraging the Kovarus Solutions Portfolio of best-in-class technologies and services to deliver business services faster, at scale and more effectively to provide them a competitive advantage. But, modernizing and automating IT is complicated.

So where do you start?

We created the Kovarus Proven Solutions Center (KPSC) to let you see what's possible and learn how we can help you succeed.

We research and vet technologies to bring multi-vendor integrated solutions and reference architectures to our customers for rapid implementation and value delivery.

The KPSC is also extended as a resource for our customers to get hands-on experience with new solutions and to make sound solution selection decisions.

Start your journey with a few basic questions:

1. What would you like IT to do for your business that it can't do today?
2. What strategy and technologies are best suited to meet your business requirements?
3. How do you transition business operations into the cloud?
4. How do you architect hybrid or multi-cloud environments?
5. Can you integrate a cloud service catalog with your current systems?

AT-A-GLANCE

- Hands-on experience
- Try before you buy
- Understand advantages of integrating new technologies

KEY BENEFITS

- Learn about emerging technologies
- Understand how they can benefit your organization before making a financial investment
- Shorten your time to market

Kovarus Proven Solutions Center

Kovarus Solutions Demonstrations

Kovarus solution demonstrations give you hands-on experience so you can try before you buy, and better understand the advantages of integrating new technologies into your environment. After you identify what's appropriate for your business needs, you'll receive ongoing training throughout the evaluation process to help you hit the ground running.

Application Delivery Demos

Application-centric strategy to leverage resources across all infrastructure to deliver transformative capabilities to the business and enable IT to easily adopt new and emerging technology.

- Adopting DevOps through CI/CD

Cloud Automation Demos

Platform to automate and reduce manual work, with the processes and tools to streamline IT operations and become a services broker for the business.

- Configuration Management and Orchestration
- Automated Infrastructure Deployment
- Infrastructure as Code

Infrastructure Optimization Demos

Foundation for simplifying and standardizing infrastructure, with enhanced performance, availability, & scalability.

- Standardized Scalable Platform
- Data Protection

Kovarus Executive Briefings

Kovarus Executive Briefings help you determine which solution is appropriate for accomplishing your goals, including a roadmap to deliver concrete results — all while maximizing your existing IT investments.

Kovarus Solution Workshop

At a Kovarus Solution Workshop our technical experts illustrate how today's advanced solutions can transform or optimize your IT environment, whether on-premises or in the cloud (public, private, hybrid/multi). Our experienced professionals will update you on the latest innovative technologies, including DevOps, SDN, automation, orchestration, etc. — plus how the latest technologies can be integrated and deployed to accomplish your goals.

THE KOVARUS ADVANTAGE

- Experts in modernizing and automating IT
- Premier partner of leading technology companies
- Extensive array of certified specialists
- Broad industry experience
- Multi-vendor technology expertise
- Proven methodologies to help accelerate business through IT
